ALL INDIA SENIOR SCHOOL CERTIFICATE EXAMINATION, 2019

Strictly Confidential: (For Internal and Restricted use only) Senior School Certificate Examination March 2019

Marking Scheme – SUBJECT Geography (Theory) (Code No.- 029)

Code No. 64/1/1

General Instructions: -

- 1. You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully. Evaluation is a 10-12 days mission for all of us. Hence, it is necessary that you put in your best efforts in this process.
- 2. Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and marks be awarded to them.
- 3. The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
- 4. If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled.
- 5. If a question does not have any parts, marks must be awarded in the left hand margin and encircled.
- 6. If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out.
- 7. No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
- 8. The following Textbooks can be referred to for detailed answers. Page number of the concerned book is given on the right side of the answer of each question.

Textbook I (TB-1) Fundamentals of Human Geography, published by NCERT. (Latest edition)

Textbook II (TB-2) India: People and Economy, published by NCERT. (Latest edition)

- 9. A full scale of marks 1-70 has to be used. Please do not hesitate to award full marks if the answer deserves it.
- 10. Every examiner has to necessarily do evaluation work for full working hours i.e. 8 hours every day and evaluate 25 answer books per day.
- 11. Ensure that you do not make the following common types of errors committed by the Examiner in the past:-
 - Leaving answer or part thereof unassessed in an answer book.
 - Giving more marks for an answer than assigned to it.
 - Wrong transfer of marks from the inside pages of the answer book to the title page.

- Wrong question wise totaling on the title page.
- Wrong totaling of marks of the two columns on the title page.
- Wrong grand total.
- Marks in words and figures not tallying.
- Wrong transfer of marks from the answer book to online award list.
- Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.)
- Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
- 12. While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as (X) and awarded zero (0) Marks.
- 13. Any unassessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
- 14. The Examiners should acquaint themselves with the guidelines given in the Guidelines for spot Evaluation before starting the actual evaluation.
- 15. Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
- 16. The Board permits candidates to obtain photocopy of the Answer Book on request in an RTI application and also separately as a part of the re-evaluation process on payment of the processing charges.

Senior School Certificate Examination – March 2019 Subject- Geography (Theory) Subject Code - 029 Code SET 64/1/1 Marking Scheme

Q. No.	Expected Answer/Value Points	Page No. In TB	Distribution of marks
	SECTION A		
1	LITERACY Literacy is the ability to read, write and to do arithmetic calculation with understanding. OR AGE STRUCTURE Age structure represents the number of people of different age groups.	Pg No19 T.B 1 Pg No18 T.B 1	1
2.	GROWTH & DEVELOPMENT		
	Growth I. Growth is quantitative value neutral. II. It may have positive or negative sign. III. It refers to change over a period of time. Capacital process of positive in period of time. [II. While it is always positive. [III. While it also changes over a period of time. (Any one)	Pg No 22 T.B 1	1
3.	DIGITAL DIVIDE:-		
-	The developed countries are surging forward economically, politically and socially, while developing countries are lagging behind economically, politically and socially. The difference between these two is called digital divide.	Pg No63 T.B 1	1
4.	PROBLEMS OF BARTER SYSTEM 1. Difficulty in searching buyers for one's excess product. 2. Difficulty in searching the seller of the product, one need. 3. Any other relevant point (Any two)	Pg.No81 T.B 1	1/2 + 1/2 =1
5.	Males migrate from rural to urban areas in India for employment. OR FEMALE MIGRATION is higher from rural to rural areas	Pg No20	1
	because of their marriage.	T.B 1	1
6.	IMPORTANCE OF RAIN WATER HARVESTING:- I. Check the decline in ground water level. II. Improves the quality of ground water.		

	III. It prevents flooding and arrests salt water intrusion		
	in coastal areas.		
	IV. It increases water availability		
	V. Any other relevant point.		
	(Any one to be examined)		
		Pg No 67	1
_	LIBBANI WASTE IS A SERIOUS PROPIENA IN INDIA	T.B 2	
7.	URBAN WASTE IS A SERIOUS PROBLEM IN INDIA:-		
	I. Generation of large quantity of wastes in urban areas		
	due to overcrowding.		
	II. No proper disposal of waste material.	Pg. No138-139	
	III. Concentration of industries in and around the urban	T.B 2	
	areas.		
	IV. Any other relevant point.		
	(any one to be explained)		
	OR		
	AIR POLLUTION is a serious problem because:-		
	I. There is a marked increase in emission of toxic gases		
	into the atmosphere resulting in the pollution of air,		
	which causes problems in respiratory, nervous and		
	circulatory systems.	Pg. No 137	1
	II. Any other relevant point.		
	(any one to be explained)		
	SECTION B		
8.	PHYSICAL ENVIRONMENT has been greatly modified by		
	human beings.		
	I. The physical environment & socio- cultural		
	environment created by human beings through		
	mutual interaction.		
	II. The physical environment has set the stages for		
	human beings to act upon it.		
	III. The humans created houses, roads, parks, industries		
	etc.		
	IV. The humans created these items by using resources		
	provided by nature.		
	V. Any other relevant point.	Pg.No 2	
	(Any three points to be explained)	T.B 1	3
9.	(9.1) I. Circular pattern		
٦.	(0.0) (0.1) (1.1) (1.1) (1.1)		
J.	(9.2) I. Circular villages develop around lakes, tanks.		
J.	(9.2) I. Circular villages develop around lakes, tanks. II. Central part remains open and is used for keeping		
<i>J</i> .			
<i>3.</i>	II. Central part remains open and is used for keeping		
<i>J</i> .	II. Central part remains open and is used for keeping the animals.		
<i>J</i> .	II. Central part remains open and is used for keeping the animals. OR	Pg No -94	
<i>J</i> .	II. Central part remains open and is used for keeping the animals. OR (9.1) I. Star like pattern	Pg. No94 T.B 1	1+2=3
<i>3.</i>	II. Central part remains open and is used for keeping the animals. OR (9.1) I. Star like pattern (9.2) I. Several roads converge.	Pg. No94 T.B 1	1+2=3
<i>J</i> .	II. Central part remains open and is used for keeping the animals. OR (9.1) I. Star like pattern (9.2) I. Several roads converge.	_	1+2=3
9.	II. Central part remains open and is used for keeping the animals. OR (9.1) I. Star like pattern (9.2) I. Several roads converge. II. Houses are built along the roads.	_	1+2=3

I. Houses are built very close to each other. II. These settlements develop along the river valleys and in fertile plains. III. Communities are closely knit & share common occupations. Any other relevant point. (Describe any three) OR Characteristics of Dispersed settlements: I. Houses are spaced far apart. II. Sometimes interspersed with fields. IIII. A place of worship or a market binds the settlement together. IV. Any other relevant point. (Describe any three) 10. Decadal growth rate in India , 1901-2011 (10.1) 1911-1921 (10.2) Decadal growth has shown the regular downward trend. I. 1971-1981 III. 1981-1991 III. 1991-2001 IV. 2001-2011 (Any two) (10.3) Two reasons for the declining trend in the population growth rate. I. Increase in the mean age at marriage. II. Improved quality of life. III. Improvement in the education of females IV. Opting family planning programmes. V. Any other relevant point (Explain any two) 10. For Visually impaired candidates I. Rapid fall in the mortality rate. III. High fertility rate. III. Immigration from neighbouring countries.				Selies. DVIV	1/ 1
in fertile plains. III. Communities are closely knit & share common occupations. Any other relevant point. (Describe any three) OR Characteristics of Dispersed settlements: I. Houses are spaced far apart. II. Sometimes interspersed with fields. IIII. A place of worship or a market binds the settlement together. IV. Any other relevant point. (Describe any three) 10. Decadal growth rate in India , 1901-2011 (10.1) 1911-1921 (10.2) Decadal growth has shown the regular downward trend. I. 1971-1981 II. 1981-1991 III. 1981-1991 III. 1991-2001 IV. 2001-2011 (Any two) (10.3) Two reasons for the declining trend in the population growth rate. I. Increase in the mean age at marriage. II. Improved quality of life. III. Improvement in the education of females IV. Opting family planning programmes. V. Any other relevant point (Explain any two) 10. For Visually impaired candidates I. Rapid fall in the mortality rate. III. Immigration from neighbouring countries.		I.	Houses are built very close to each other.		
III. Communities are closely knit & share common occupations. Any other relevant point. (Describe any three) OR Characteristics of Dispersed settlements: I. Houses are spaced far apart. III. Sometimes interspersed with fields. IIII. A place of worship or a market binds the settlement together. IV. Any other relevant point. (Describe any three) 10. Decadal growth rate in India , 1901-2011 (10.1) 1911-1921 (10.2) Decadal growth has shown the regular downward trend. I. 1971-1981 II. 1981-1991 III. 1981-2001 IV. 2001-2011 (Any two) (10.3) Two reasons for the declining trend in the population growth rate. I. Increase in the mean age at marriage. II. Improved quality of life. III. Improvement in the education of females IV. Opting family planning programmes. V. Any other relevant point (Explain any two) 10. For Visually impaired candidates I. Rapid fall in the mortality rate. III. Immigratility rate. IIII. Immigration from neighbouring countries.		II.	These settlements develop along the river valleys and		
occupations. Any other relevant point. (Describe any three) OR Characteristics of Dispersed settlements: I. Houses are spaced far apart. III. Sometimes interspersed with fields. IIII. A place of worship or a market binds the settlement together. IV. Any other relevant point. (Describe any three) 10. 	III. Prehistoric towns developed along the rivers.		
	I. Towns like Harappa & Mohanjodaro were inexistence.II. Towns continued to flourish in prehistoric period.		
	Towns flourished since prehistoric times in India:		
	OR		
	(To be examined by explaining any three points)		
	IV. The growth rate of urbanization has slowed down. V. Any other relevant point.		
	III. Emergence of new towns.		
	II. Enlargement of urban centres.		
	century.		
	I. The urban population has increased eleven folds, during 20 th		
13.	Level of urbanization in India after independence	1.0 4	
	(To be describe any three points)	Pg. No 121 T.B 2	3
	V. Any other relevant point.		
	IV. India is surrounded by seas from three sides & is bestowed with a long coast line.		
	III. Sea route is cheap mode of transport.		
	II. Huge tonnage of goods can be easily carried through sea		
	I. No track needs to be prepared.		
12.	Importance of sea routes in handling India's foreign trade		
	(To be justified by explaining any three points)	Pg.No30 T.B 2	3
	between population growth & resources. V. Any other relevant point.	Da No. 20	3
	IV. Thus for development there should be at par		
	resources & it hampers development.		
	III. Hence there is no parity between population and		
	expansion widened.		
	II. The gap between population growth and resources		
	 It is true that population grows rapidly but resources expand marginally. 		
	maintained		
11.	Prime task before any development activity in India is to be		

15.	Characteristics of Pastoral Nomadism		
	I. It is a primitive subsistence activity.		
	II. The herder rely on animals for food, clothing, shelter, tools		
	and transport.		
	III. They move from one place to another with their livestock,		
	depending on the amount & quality of pasture and water.		
	IV. Nomadic community occupies a well identified territory		
	V. Wide variety of animals kept.		
	VI. The number of pastoral nomads has been decreasing.		
	VII. Any other relevant point.	Pg. No33	
	(Describe any five points)	T.B 1	1 x5 = 5
16.	Characteristics of High tech industry:-	112 -	
10.	I. It is the latest generation of manufacturing activities.		
	II. These industries are based on research and development.		
	III. Professional workers make up a large share of the total work		
	force.		
	IV. It functions on Robotics and computer aided design.		
	V. High tech industries are regionally concentrated, self sustained	Pg. No52

		(Analyse any three points)		
	Signi	ficance of Rhine inland waterways		
	I.	This water way passes through a rich coal field & prosperous		
		manufacturing area.		
	II.	Huge tonnage moves along this waterways		
	III.	It is the world's most heavily used waterways		
	IV.	Any other relevant point.		
		(Explain any two points)	D. N. 75.76	
		(Explain any two points)	Pg.No 75,76 T.B 1	3+2=5
18.	Major	problems of Indian agriculture - Erratic monsoon & low		
	_	ctivity		
		c monsoon:		
	1.	As irrigation covers only 33% of the cultivated area in India but		
	١.			
		poor performance of S.W monsoon adversely affect the supply		
		of canal water.		
	II.	The rainfall in Rajasthan & other drought prone areas is to		
		meagre & highly unreliable.		
	III.	The area receiving high annual rainfall experience considerable		
		fluctuations which makes them vulnerable to both drought &		
		floods.		
	IV.	Drought is a common phenomenon in the low rainfall areas.		
	V.	Recently flash floods occurred in Maharastra, Gujarat &		
		Rajasthan.		
	VI.	Any other relevant point.		
	V 1.	Any other relevant point.		
		Low Productivity		
		I. The field productivity of the crops in the country is		
		lower than other countries like U.S.A, Russia & Japan.		
		II. The labour productivity is also low.		
		III. The productivity in rainfed areas is particularly lower		
		than irrigated areas.	D. N. 56	
		IV. Any other relevant point.	Pg. No 56	
		(To be substantiated by explaining any five points)	T.B 2	3+2 = 5
19.	Factor	's that helped in the development of 'Hugli industrial region'		
	I.	Hugli river provides cheap transport.		
	II.	Kolkata & Haldia ports facilitate export and import.		
	III.	Power available from Damodar valley & coal fields from		
		Chhota Nagpur region.		
	IV.	Availability of raw materials like jute from nearby areas.		
	٧.	Cheap labour available from thickly populated part of Bihar,		
		eastern Uttar Pradesh & Odisha		
	VI.	Kolkata was well connected with interior parts by railway lines		
	۷۱.	& road routes.		
	\/11			
	VII.	Examples: Cotton textile, jute textile, paper textile, machinery,	De No 100	
	,,,,	pharmacenticals etc.	Pg. No100

		(Explain any five points)		1 x5 = 5

			., .
	OR		
	Factors that helped in the development of 'Mumbai Pune industrial		
	Region'		
	Development started with the location of cotton textile		
	industry in Mumbai.		
	II. Moist climate suitable for cotton textile.		
	III. Suez Canal provided impetus to the growth of Mumbai port.		
	IV. Hydro electricity was developed in the western Ghat to fulfill		
	the requirements of this industry.		
	V. Opening of the Mumbai high petroleum field & erection of		
	nuclear energy plants added additional pull to this industry.		
	VI. Example: Engineering goods, petroleum refining,		
	petrochemicals, leather, synthetic & plastic goods etc.	Pg. No100	
	(Explain any five points)	T.B 2	
20.	India has one of the largest network of road in the world:		
	I. India has one of the largest network of roads with total length		
	of over 42 lakh kms.		
	II. 85% of passengers & 70% freight traffic carried by roads.		
	III. Roads concentrated in and around urban centres, rural and		
	remote areas.		
	IV. Construction of Golden Quadrilateral & North South- East		
	West corridors.		
	V. Many super express ways have been built.		
	VI. Under Pradhan Mantri Sadak Yojna all villages are connected		
	with all weather roads.	Pg. No114,115	1x5=5
	VII. Any other relevant point.	T.B 2
